

A Grand Day Out

Coffee and Classics Season Finalé

On the 3rd October to finish off the year, myself and Jonathan visited The Classic Car Hub at Bibury, a well-known and highly-regarded fixture on the British motoring calendar, Coffee and Classics Season Finalé for one last fling before putting our cars to bed for winter.

As usual we were in fine company of many other cars and their owners. The Classic Motor Hub team made us feel very welcome as we wandered around the wide variety of vehicles from a Triumph Vitesse to a Chevrolet Corvair and everything in between.

There was full access to the award-winning showrooms, whilst sipping on a coffee it was very pleasant browsing around vehicles and around the shop which is stocked with a great selection of automotive memorabilia, basically “must haves” to adorn your garage!

I was particularly excited to see the 1927 Bentley 3/8 litre speed special, my dream car, at £625k I need to buy a lottery ticket!

We finished off by driving to the Bourton-on-the-Water for a spot of lunch, a grand day out definitely worth the drive to the beautiful Cotswolds even if we did get mildly moist on the M5 at least we entertained and amused fellow drivers in their Tin-tops as they passed us with the hood down!
